BEN NEWMAN

FULL-STACK WEB DEVELOPER

+44 7405 349 895 | benjamin-newman@live.co.uk | github.com/bennewman90

PROFILE

A 28 year old **full-stack** web developer with a background in structural engineering. Looking for a **junior developer** role and have a hunger to learn as much as possible. Interests include cycling, coding, climbing, painting and running.

EXPERIENCE

FULL-STACK JS BOOTCAMP | 2018

Founders and Coders

- A **highly selective** tuition-free 16 week full-stack **javascript** bootcamp with 3 months in Nazareth (Israel) and 1 month in London.
- Project based learning with a new team **project every week** for the first 9 weeks.
- Second half of the course involves working on **two larger projects**, one with an **external client**
- Emphasis on pair-programming.

STRUCTURAL ENGINEER | 2014-2018

Form SD (LDN) | 2018
Zoran Construction (MEL) | 2017
Blue Engineering (LDN) | 2014-2016

- Lead role in the **design** of building projects all over London.
- **Managed** teams of four people over various projects.
- Built **client-relationships**, managed expectations and delivered on **deadlines**.
- Produced highly **technical** designs and **reports.**

PROJECTS

READ WITH AUDREY | 2018

Airtable/MailGun/Gatsby/Zapier/ GraphQL/NetlifyCMS

- A **team of four** working with a real client to manage their existing platform for **connecting strangers** to read together over audio and video calls. Currently has **50 weekly users**.
- Making use of powerful **third party tools/add-ons**, including Airtable and Mailgun and NetlifyCMS.

TOPCORNER | 2018

React/Express/PostgreSQL/Heroku

- An online World Cup/Euros **predictions game**/sweepstake.
- Completed over three weeks including **rapid-prototyping** on Figma and **user testings**.
- The project was **my idea** and complete in a **team of two**.
